In Bavaria, exceptionally high value has been placed on beer since time immemorial. It's not just the proverbial „liquid bread“, but as much a part of our culture as the traditional Bavarian costume and customs. In addition, it's an important source of joie de vivre and enjoyment. As a family, we're proud to still be brewing such an important and convivial component of our Bavarian lifestyle - a task to which we bring all the knowledge and expertise accumulated over six generations.

The privately-owned Ayinger Brewery was founded on a centuries-old sense of being deeply rooted in our homeland. Thus, the multiple award-winning quality of our beer is also due to its purely regional ingredients from Aying and its environs, to the time-honoured craftsmanship of our brewers and to a consistent quality consciousness - none of which have changed since Johann Liebhard's times. These are the values and the attitude with which we've been brewing our beer since 1878 and will continue to brew it in the future.
